This is the third office action for application number 10/810,147, Baby Bottle Holding Apparatus, filed on March 25, 2004.

***Examiner's Amendment***

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

In claim 13, line 11, "adapted to hold" has been deleted and --holds-- has been inserted in place thereof and in line 14, "adapted to" has been deleted.

In claim 28, line 10, "adapted to" has been deleted.

***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance: the primary reasons for the allowance of the claims in this application are the limitations of a baby bottle holder including a base portion having a plurality of protruding stems, the stems adapted to press a baby bottle against a top portion to provide a snug fit against the top portion, now essentially included in the independent claims 1, 13, 25, and 28, and in combination with the other elements recited in the claims respectively, which is not found in the prior art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

Art Unit: 3632

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

### ***Conclusion***

The above examiner's amendment was made to clearly define the claimed limitations of each claim.
